PROFESSIONAL EXPERIENCE (TECHNICAL PROJECTS)

- Social Media App (MERN Stack)** January-May 2025
 - Built a full-stack social platform with post, like, comment, profile edit, follow/unfollow, and real-time chat features.
 - Implemented JWT auth, Google OAuth, and used Zustand for scalable state management.
 - Used axios for API handling.
 - Developed a complete Admin Panel with dashboards for stats, users, posts, notifications, and admin settings.
 - Added system notifications and a support system with predefined FAQs to enhance user experience.
 - Styled with Tailwind CSS & DaisyUI, optimized with dark mode, protected routes, redis based caching.
 - Used Redis, Socket.io, React-Hot-Toast, and Framer Motion for caching, real-time updates, toasts, and smooth UI animations.
- 3D Anniversary website (React, Three.js, Tailwind CSS)** March 2025
 - Built an emotional 3D gift experience featuring a double-page photo album with flip/curl effects.
 - Integrated fullscreen album view, background music ("Teri Meri Kahani"), and a proposal page with slow zoom-out and heartbeat sound for a cinematic touch.
 - Designed fully responsive layout using Tailwind CSS and DaisyUI, with smooth page transitions and theme toggle.
 - Optimized for performance using React.lazy, Suspense, and code splitting for faster load times.
 - Used useRef, useCallback, and useMemo to enhance re-renders and interaction performance in animation-heavy sections.
- Weather App (React, OpenWeatherMap API)** May 2024
 - Developed a weather forecasting app fetching real-time data using OpenWeatherMap API.
 - Designed a clean, intuitive UI with dynamic updates based on API responses.
